

GUARDIANSHIP FOCUS

— LIULIAN

GATEWAY

EDUCATION

Liulian came to the UK in September 2018 and she is a Y12 student at Dover College studying A Levels in Mathematics, Physics and Music. Her passion is music and she hopes to study this further at Oxford University.

My guardian Sophie is very responsible. She always answers our questions patiently. When we are in trouble, she will try her best to support us. Sophie is not only a responsible teacher, but also a lovely friend. I can share everything with her whether it is good or not. Sophie also gives me some mature suggestions which moves me a lot. Sophie visits me in the school once a month. She always brings the gifts for us. When we meet each other, we talk about my school life. She cares about my emotional wellbeing and every aspect of my life in Britain. All in all, she is a great guardian.

Liulian is a very capable student who has settled in well. I'm pleased with her work ethic and progress. She works very well in her classes, and although shy, participates to the best of her ability. She started the term with a low level of English but through her hard work she is making steady and positive progress. Liulian is also an independent girl and she tries to solve all problems by herself. Liulian is always ready to help others and as her Guardian, she is a pleasure to support.
